

THE TOILET IS NOT A GARBAGE CAN

If you throw rubbish down the drain, this damages the sewage pipes and increases the expenditures for cleaning and repairs. This generates millions in unnecessary costs every year. Costs which we all have to pay for through our waste water utility fees! So: Go easy on the waste water system, your wallet and the environment – dispose of rubbish properly!

You can find additional information at www.klobal.at.

THE TOILET IS NOT A GARBAGE CAN

These items do not belong in the WC:	Possible damages:	Where to?
